

good good wonderful

Do good, Be Thankful

About Us

Our vision

We're building a deeply transparent and open organisation committed to doing this the right way - not by charity but by a commitment to open source, honoring community and building open but financially self sustaining institutions. We're all about using our passion for good design and good tools to make a lasting and permanent difference in this world.

Why?

Too many people in our society are undervalued, underappreciated and under paid. Every member of our society has gifts to offer it is time we learned how to appreciate them.

Too much of society is organised by the rules of a debt based banking system taking us on a dangerous and unstable journey into unsustainable growth and destruction.

Good Good Wonderful was started by people who want to do something about these problems.

We believe there are better ways to encourage each of us to

“ I'M PASSIONATE ABOUT COMMUNITY ENGAGEMENT THROUGH DESIGN AND PSYCHOLOGY RESEARCH.”

Values

- Radical transparency
- Open source
- Sustainability

About Us

As you can imagine I've seen hundreds of companies come out of Startup Weekends, but I really think that yours is a total standout, and resonates with me in a way that no other SW company ever has before. You guys have a shot at refactoring the crappy world economy that we're all forced to be part of. That's really important work.

- Dave Moskowitz

 Second place winner

Second place at the first
Social Enterprise Startup
Weekend, Wellington 2013

Values

- Radical transparency
- Open source
- Sustainability

Funding & Structure

- ❧ Startup with commitment to open source
- ❧ Social Enterprise = Not a charity, nor 'just' a business

- ❧ Github model = Commercial skills sharing* using same software as community timebanks. *with IRD Compliance

Design Centric

- ❧ 1. Understand and empathize with real people and real problems.
- ❧ 2. Design the experience around that – motivations guiding what are the next steps.
- ❧ 3. Then design interface and graphical presentation.
- ❧ 4. Take stuff away and keep iterating.

Timeline

- ❧ Startup weekend
- ❧ Design Work (Empathize and Personality)
- ❧ MVP (minimal viable product) – <http://thankful.as> ←
- ❧ Launch and iterate based on feedback
- ❧ Pledgeme/Kickstarter for timebank software
- ❧ First real timebank beta (2014)

Some Questions for you?

- ❧ Why do people need timebanking?
- ❧ What do you find most frustrating

Rohana

people person who
is involved in the community

Rohana

33, Social Worker

lives in a
shared house
involved in the
community

Problems:

- Working a lot & feeling stressed
- giving to the community but not being appreciated
- energy slowly being drained.

she wants to be appreciated but don't want to "blow her own horn."

- Undervalued

Solutions:

- Sharing responsibilities
- She should be more appreciated by others & by herself.
- being encouraged to make use of things to keep her energy up
- Can build her own identity through other people she help to.

Heath.

urban connector trying
to reconnect his life

Heath

30, ex urban professional
recently married
recently moved to
Whangamata
still works in "town"

Problems:

- don't know the community.
- Someone gave him a ride and:
he wants to thank them
- He wants to remember to pay it back.
- Wants to build his identity

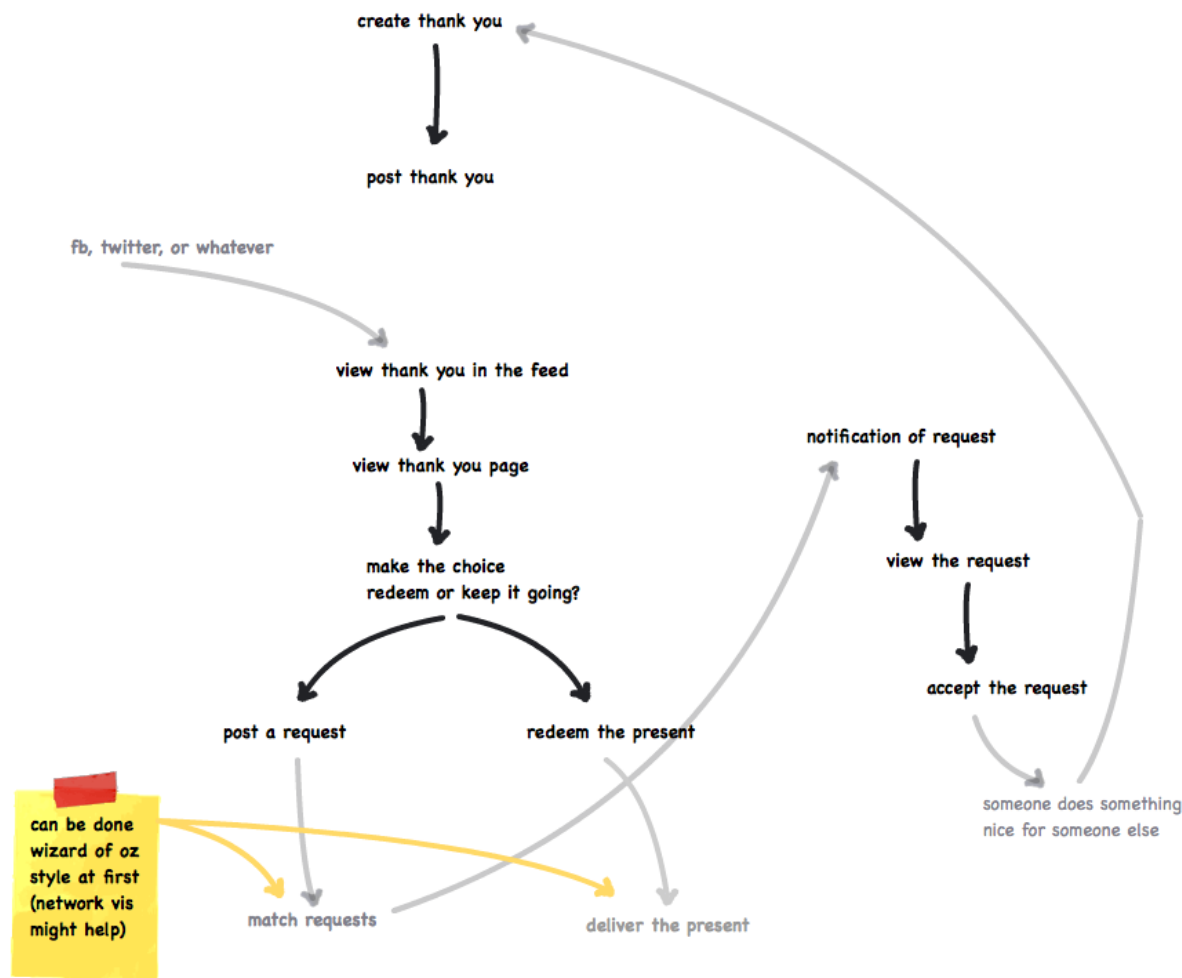

image
motivation

- feeling disempowered
with the day job &
commute.

Solutions:

- Thank as map-
acknowledgment.
- He gets a reminder
can check his balance
- Has his own page at
Thankful as & can
share on facebook.
- wants to celebrate
and appreciate
Whangamata &
his life outside work.
